IMPACT REPORT

INDIRA CANCER TRUST
Our acknowledgement to our partners who make all our work possible

Banking Partner
COMMERCIAL BANK

Chartered Accountants & Auditor
TUDOR V. PERERA
Chartered Accountants

Legal Partner
Sudath Perera Associates
We started our work helping patients with cancer in 2016 and after 5 years, the year 2021 has been a year filled with many milestones including the laying of the foundation stone for Suwa Arana and also the Wig Production unit.

We continue to support patients who walk through our doors starting from the kindness we show with a cup of tea up to the provision of a range of services such as medicine, financial aid, scholarships and even in some instances re-building their homes.

So we look back on our achievements which are measured not by the number of things we do but by how many lives we touch. We are humbled and grateful for all the support we receive and the encouragement which strengthens us to continue our help to others.
It gives me great comfort when I see the work of Indira cancer Trust, now approaching its sixth year. The work of the trust is handled by an exceptional team of Staff and Coordinators guided by the Board of Trustees. It is this team that makes everything possible and my heartfelt gratitude goes out to each and every one of them.

Having seen a daughter battle cancer at a young age I do realise what difficulties each patient, their family members and anyone close to them undergo and am extremely proud of the the team at Indira Cancer Trust that is always ready to support them and bring a smile back to their faces.
More than 20,000+ lives touched
We are not a TEAM because we work together.
We are a TEAM because we respect, trust and care for each other
With the COVID situation in the country and restrictions imposed, we had to migrate to a mobile platform for the helpline and are thankful to the Mobitel team for their support. The Cancer Helpline continues to operate daily from 7am - 7pm and in addition to providing information and other services provided by ICT this year, we also initiated phone counselling. This is an area which we will strengthen in the coming year.

Chamara Pushpakumara – ICT Programme Coordinator

Total No of Calls in 2021 - 15,528

SPONSOR-A-CHILD

This is not your usual sponsor a child scheme - our whole programme is based on building a relationship with a child whose mother, father or even both parents have cancer. Each sponsor is allocated a child and the child receives Rs.1000 every month in addition to any other need the sponsor may support.

Renuka Kumarasinghe – Sponsor A Child Coordinator
Chamara Pushpakumara – ICT Programme Coordinator

Total No of Children sponsored in 2021 - 90
**BREAST PROSTHESIS**

"With Breast Cancer, surgery may be needed and a patient may lose one or even both breasts. In some situations breast reconstruction is offered but if not, then a breast prosthesis helps to maintain the shape of the body. This helps a patient to lead a normal life. 2022 is our target year to initiate a system to distribute breast prosthesis throughout the country for patients in need."

Total No of Breast Prosthesis in 2021 - 330

**FINANCIAL AID**

"Cancer unlike any other disease tends to cause unimaginable economic impoverishment leading to much agony not only to the patient but also the whole family. The Financial Aid programme of Indira Cancer Trust not only provides a cash grant of LKR 30,000 but also assigns a counsellor to encourage them for a period of 6 months monitoring their progress so that it results in a happy ending. All patients are selected based on criteria on submission of an application and after a detailed interview. It gives us immense pleasure when we hear success stories of how lives are changed."

Total No of patients supported with Financial Aid in 2021 - 80

**INVESTIGATIONS**

"We help children admitted to Apeksha Hospital Maharagama, with their blood investigations which is needed before treatment is started. These genetic investigations are not available and are being done through Lanka Hospital on the recommendation of the treating consultant. We also help patients with any other investigations not available in the government sector."

Total Number of patients supported with Investigations in 2021 - 112
Diriya Hala was started by the Counselling, Spiritual and Social development unit of the Apeksha Hospital, Maharagama and it encourages low-income cancer families struggling to make a living and trying to rebuild their lives on their own. This will give them the opportunity to hone their skills and sell their own handicrafts such as food, clothing, and other products made by patients with cancer. We are extremely happy to continue this and provide a platform for sale where all proceeds go directly to the patient / relative. In 2021 despite the COVID situation we did have stalls at several exhibitions. In addition to this we also conducted training sessions on different vocations eg: Batik painting / soap making / paper bags conducted by industrial experts. This created a relaxation activity as well as provided much needed training.

Mary Yu Aihun - Diriya Hala Coordinator
Yasmina Weerabangsa - ICT Secretary

Total No of Exhibitions 2021 - 8
Total No Trainings 2021 - 3

Dry Ration Packs & Nutrition Support

Distribution of dry ration packs is a new programme that we started in 2021. A pack worth Rs 3000 is handed over after a process of screening to ensure need.

In addition to dry rations we also provide nutritional supplements on request.
TRANSPORT

Total No of patients supported for transport in 2021 - 215
Patients come to Apeksha Hospital Maharagama from all over Sri Lanka. The cost to get there in some instances may be quite high. During the COVID-19 peak situation the cost of transport doubled as a patient had to purchase 2 seats when travelling. Indira Cancer Trust devised a scheme of public transport reimbursement of the travelling expenses for patients.

BIRTHDAY GIFTS

Although COVID-19 has restricted the visit of volunteers to the wards and handover gifts, children still do visit the Indira Cancer Trust office informing us of their birthdays. The smile we get is a reflection of their happiness. It is our intention to initiate a system for dispatch of gifts considering the restrictions of access to the wards, so that more children will benefit out of this.
Total No of birthday gifts in 2021 - 23

EQUIPMENT

Total No of patients supported with equipment in 2021 - 9
Any equipment requested by the patient is supported on verifying the need and receiving of a completed application on recommendation by the treating consultant. Although we generally support diapers and wheelchairs - we also supported a child with an artificial limb which was sponsored by a donor as the cost was high.
**FUNERALS**

Total No of funerals supported in 2021 - 3

"Cancer takes those we love far too early. It hurts us deeply and the loss breaks our hearts"

At one of the most difficult times in their lives, Indira Cancer Trust is able to support them by helping with expenses related to accompanying the remains of their loved ones to their hometown, funeral expenses or purchase of coffin.

---

**COUNSELING**

Total No of Phone Counseling sessions done - 4

"With the COVID situation new approaches had to be devised and hence phone counseling was initiated. This is a service that needs to be strengthened in 2022.

---

**MEDICINE**

Total No of patients supported with medicine in 2021 - 19

Patients walk into Indira Cancer Trust to request medicines when they are not available in the hospital they are being treated. On receiving a completed request form from the treating medical team the medicine is purchased immediately and handed over to the patient.
SUWA ARANA - A PLACE FOR HEALING

Paediatric Palliative Care Centre and Paediatric Housing

“We are so happy to be able to initiate Sri Lanka’s first Paediatric Palliative Care Centre in line with the National Strategic Plan on Childhood & Adolescent Cancer Care in Sri Lanka 2021-2025. The work started on 15 February 2021 - International Childhood Cancer Day and we hope to open its doors to children with cancer on 15 February 2023. This will truly be a place for Healing with individualised care directed at each and every child and their family members occupying the 32 en-suite rooms.”

Joan Hyde - Suwa Arana Coordinator
Chamara Pushpakumara - ICT Programme Coordinator

SUWA ARANA A Place for Healing

Providing individualised blending of care directed at underlying illness and physical, emotional, social, and spiritual needs of child and family with continued re-evaluation and adjustment.

- In very close proximity to Apeksha Hospital, Maharagama: Only institution managing paediatric Cancer in Sri Lanka
- 6 floors - 4 floors for patient rooms
- 8 rooms per floor - 32 in total
- All rooms designed in an en-suite family style
- Family Centred Care (FCC)
- Roof top garden, ground floor dining, Specialised kitchen and recreational area.
- Addressing all 5 spheres of Paediatric Palliative Care including Physical, Psychosocial, Practical, Spiritual & Advance Care planning
- Clear Admission Criteria for Paediatric Housing and Paediatric Palliative Care

ALL SERVICES FREE OF CHARGE
Total No of patients supported for Wigs in 2021 - 734

The hair and wig donation programme of Indira Cancer Trust was started in 2017 and today the programme has expanded islandwide with the Sonduru Diriyawanthi Programme. Hair loss is a side effect of treatment and we see how hair loss affects lives. A wig is required not only for beauty but for patients to return to their normal life. The smiles when a wig is placed on the head speaks volumes.

Courage for the real beauty
Total No of awareness sessions conducted- 24

"2021 was the year that Indira Cancer Trust formally started awareness sessions targeting breast cancer which is the highest female cancer in Sri Lanka. We are thankful to Mr Roshan Mahanama for his partnership with us through his "Pink Wednesday Campaign. Whilst we continue breast cancer awareness throughout the year, we have an accelerated campaign for breast cancer in October - Breast Cancer Awareness Month. In addition September was also a month for paediatric cancer and multiple awareness sessions were done."

Karen Amarasinghe - TLC Coordinator
The Stand-By A Child - SBC programme was started especially for the Youth Volunteering Programme - ICTJ. In this programme 2 children with cancer are allocated to each ICT Junior where they speak with the child / family every month and facilitate any services that are needed through ICT and also be friend and lend a listening ear to them. It was truly inspiring to see the extent our first batch of ICTJ volunteers went to support these children.
*In 2021 Indira Cancer Trust signed multiple MoUs with different partners to strengthen the programmes supporting patients with cancer. We are extremely grateful to all our partners for strengthening our hands. It is a privilege for us to be working with such renowned partners. We are also thankful to the team at Sudath Perera Associates for being our legal partner at Indira Cancer Trust and providing all services to us Pro-Bono*”

Lumbini Bandularatne - Legal Coordinator, ICT
Sonali Perera - Volunteer Management Coordinator

Indira Cancer Trust has always been about volunteers and volunteer promotion has played a key role in all our activities. The corona virus pandemic kept us from physically connecting with volunteers for our various programmes especially those done at the Apeksha Hospital premises including Art and Craft camps & Relaxation therapy. Therefore, the older model of volunteer allocation was modified and there are now two distinct programmes we conduct specifically for volunteers - V4Day and virtual volunteering.

Sonali Perera - Volunteer Management Coordinator

V4Day is where you choose and spend your day at Indira CancerTrust - getting to know what we do and also meeting and helping patients who walk in to the trust. If you are looking to volunteer from the comfort of your own home then virtual volunteering is for you! This is a program where you will be connected with either recipients of the sponsor a child scheme or financial aid. If you need to feel a sense of purpose amidst the chaos and able to donate your time to a cause that matters, then please do join us to make a difference.

Champa De Silva
Coordinator – Special Projects
Indira Cancer Trust

My story of volunteering in Sri Lanka started in 2018 when we visited ICT and was so impressed with the programs going on and wanted to be a part of it. We have been residing in USA for over 30 years and we wanted to give back to the country we were born and raised. My husband is still in USA but closely working on the Suwa Arana project with Indira Cancer Trust. My husband and son are still in USA and myself and my daughter came to Sri Lanka and we are so happy to be here. Volunteering has always been part of my life even when we were in USA and now helping Indira Cancer Trust has give me much happiness and fulfillment. As special projects coordinator I help out in multiple projects which in turn help patients. I invite you to make time in your busy schedules and experience volunteering in its true essence with Indira Cancer Trust!
"We are thankful to the 8 members of the ICT Junior team who initiated the formal programme to recruit youth for volunteering between the ages of 13-21 years. This was a formal course initiated for 6 months with monthly advocacy sessions and a fundraising project. We are extremely grateful to the St. Jude’s Leadership Society, USA for providing the technical support of the same. Due to COVID situation all sessions were done online with the final session done on site at the Indira Cancer Trust premises. The most important part of the experience was the volunteering they did through the SBC (Stand By A Child programme)"
“Media and Social media is about participation and connecting people to one another. For Indira Cancer Trust, relationships have always been the key currency and place so much emphasis on the relationship building with volunteers, stakeholders and donors. 2021 was a significant year for us. The support we received form multiple partners of the digital media especially TNL and Lite 87.8 as well as Swarnavahini and Emerging Media amongst others is gratefully acknowledged. This year we also streamlined our platforms for social media and recruited a part time person to assist in social media. We also managed to initiate a website for Suwa Arana and upgraded the website for Indira Cancer Trust. We are thankful to IF Solutions and Graphic Systems International for their support in this effort.”

Chitrika De Mel - Media Coordinator

Electronic media campaign for suwa arana by Swarnavahini & Emerging media

"ELE" Mascot for Suwa Arana launched

Launch of Suwa Arana Website www.suwaarana.org
2021 was a busy year for Indira Cancer Trust with the launch of two big project inclusive of Suwa Arana - Sri Lanka’s first Paediatric Palliative Care Centre and the set up of the Wig Donation Unit. The COVID-19 Pandemic did not deter us but made us strong and resilient to continue supporting cancer patients. We are extremely thankful to ALSAC (American Lebanese Syrian Associated Charities ) in USA for choosing Indira Cancer Trust to enhance our capacity to raise funds.

It is in this capacity that I was selected for a year long fellowship at Indiana University to follow a fundraising course. We are very thankful to our auditors for assisting us in this effort so that transparency is maintained. We are extremely thankful to all donors who have supported us in this effort.

Dakshinie Karunaratne
Fundraising Coordinator

Yasmina Weerabangsa - Secretary
Udari Gunaratne - Accountant
Pictorial representation done based on the Indira Cancer Trust accounts for the year ended 31st March 2021. With the programme expansion and different budget lines, two further accounts were opened for Suwa Arana and Hair and Wig donation programme. Separate Audited Accounts will be produced for both these accounts ending March 2022.
ACKNOWLEDGEMENT

Our work for patients with cancer would not have been possible without the support of the following organisations / partners & well wishers. They have enabled us to reach our goals and bring smiles on the faces of many patients and their families.

We live by our motto remembering the following......

'NEVER underestimate the power of a touch, a smile, a kind word, a listening ear, an honest compliment or the smallest act of caring. ALL have the potential to turn a life around'

Partners providing technical support (Governmental / professional bodies)

Partners for Implementation (Corporate & NGO)

Media Partners

Special Acknowledgement
We would like to extend a special acknowledgement to ALSAC (American Lebanese Syrian Associated Charities) that support St Jude Children’s Hospital, USA for choosing Indira Cancer Trust in its effort to build capacities of organisations globally to address paediatric cancers.
